

Composition

Wheat flour, Dextrose, Natural Enzymes, Ascorbic Acid, Azodicarbonamide (ADA), L—Cysteine.

Hazards Identification

Emergency Overview: Free flowing, cream color powder. Get medical attention if large amounts are swallowed.

Potential Health Effects

Primary Routes of Exposure/Entry: Skin, eyes, ingestion and inhalation.

Signs and symptoms of exposure: Exposure to eyes or skin may cause mild irritation. Ingestion has a low level of toxicity. Believed to present very little hazard if swallowed. Product may be slightly irritating to respiratory tract if inhaled.

First Aid Measures

Skin contact: Wash skin with water.

Eye contact: Rinse eyes with water.

Ingestion: Rinse mouth and throat thoroughly with water drink plenty of water. Inhalation: Remove from exposure.

Get medical attention if irritation develops.

Fire and Explosion Data

No fire and explosion hazard

Accidental Release Measures

Clean up by dustless means, for instance, by a vacuum equipped with an efficiency filter. Dry brushing can produce very high exposure levels and should be avoided. Avoid formation of dust by sweeping or air hoses. Dilute remainder with plenty of water but avoid sewer disposal.

Handling and Storage

Store in a cool dry place and away from combustibles.

Keep container closed when not in use. Ensure sufficient natural ventilation.

Exposure Controls/Personal Protection

General control measures and precautions: Natural ventilation.

Personal protective equipment: Respiratory protection and gloves are not required but may be advisable.

Stability and Reactivity

This product is stable under normal conditions of use. There are no conditions or materials to avoid when using this product. There is no hazardous decomposition of this product.

Toxicological Information

This product is intended for use in bakery products. Inhalation of dust from inappropriate handling may induce sensitization and may cause allergic reactions in sensitized individuals. Prolonged skin contact may cause minor irritation.

Ecological Information

Non-dangerous, biodegradable.

Disposable Considerations

This product is not dangerous to the environment and no special disposal method is required. However, the method of disposal should be in accordance with current local authority agents.

Transport Information

This is not a DOT Hazardous Material.

Regulatory Information

Not classified as dangerous in Annex 1 of the EEC Directive 67/548.

The content and format of this MSDS are in accordance with EC directive 91/155/EEC.

Other Information

Kosher Certified
